

MICRORAM

For 15 years, MicroRam Electronics Inc. has been a hidden source for electronic components. Things are about to change. MicroRam is now supplying product directly to the world's leading OEMs and CEMs. MicroRam has created proprietary market intelligence systems and implemented the most comprehensive "zero-tolerance" quality assurance program available. Technology, coupled with its global staff of industry professionals, has helped MicroRam evolve into one of the most valued partners in electronic component distribution.

Customers such as Sanmina-SCI have benefited from MicroRam's relentless pursuit of 100 percent customer satisfaction. MicroRam is proud to be a valued global supplier of Sanmina-SCI, and invites other organizations to meet its innovative staff in person, or visit www.microram.com. MicroRam: the perfect blend of people and technology.
